

THE LUDOWICI ART OF COLOR*

Color, like everything we do at Ludowici, is an artform. An extension of your vision. Creativity. And individuality.

Products & Patterns	Brief Description	Tile Weight (lbs/square)	Pieces/Square	Exposure	Available Colors	Water Absorption	Code
FLAT SHINGLE	Available patterns – from smooth to highly textured surfaces in various sizes.

9" X 9"	A natural 9" x 9" clay red flooring tile, 1" thick.	N/A	N/A	N/A	Clay Red	Less than 3%	

* Colors within a given shipment of Ludowici clay roof tile will vary slightly due to subtle changes in clay composition and kiln firing temperatures. Such color variances should not be considered a defect, but a natural, desirable feature that gives roofs crafted from Ludowici clay tile greater character and depth.

**ANNOUNCING THE IMPRESSIONIST SERIES BY LUDOWICI
INSPIRED BY THE MASTERS**

You've never seen anything like this before: A base color is applied to the entire tile surface. Then, two or three complementary colors are blended in a totally random application. The result? You're looking at it. A dazzling effect that ensures no two tiles will ever have the same appearance, and yet due to their random color application they will always blend together in perfect harmony to create a roof of unmatched elegance and beauty. We think Monet, Cezanne, and van Gogh would be proud.

**INTRODUCING TWO NEW ADDITIONS TO LUDOWICI
IMPERIAL SLATE & CELADON™ CERAMIC SLATE™**

*Celadon
Ceramic Slate*

Imperial Slate has a depth and thickness inspired by nature that's become an instant inspiration to architects around the world. Celadon Ceramic Slate is a lightweight and strong alternative that's indistinguishable from the real thing (except, perhaps, in price). And they're both natural additions to the world's most distinctive line of clay roofing.

Imperial Slate

**FACTS YOU NEED TO KNOW ABOUT LUDOWICI
THE WORLD'S FINEST ROOF TILE**

- 🏠 The totality of Ludowici's custom capability means we can craft tiles to practically any specification the architect or owner can dream of. In other words, if it's humanly possible, Ludowici can do it.
- 🏠 Ludowici takes as much care crafting the world's finest fittings as it does the world's finest roof tile. Choose among our Standard Fittings (gable rakes; eave closures; ridge pieces; terminals; and more), as well as a full complement of Custom Fittings (hip starters and specialty terminals). Be assured, our design specialists can create fittings from your sketches to be meticulously hand-made by our artisans.
- 🏠 Ludowici's clay roof tile is made from renowned Ohio clays and fired to temperatures exceeding 2,100° F, making our tiles practically impervious to rain, snow, heat and fire. Ludowici's freeze/thaw ability is unparalleled anywhere in the world. Period.
- 🏠 Ludowici proudly carries a 75-year warranty, including 20 years of Prime Protection™ which provides for 100% of reasonable replacement costs of defective tiles, including labor, tear-off and disposal, in the event the defect occurs within 20 years of installation. (Ludowici's Celadon Ceramic Slate tile carries a 50-year warranty.) No other tile comes close.
- 🏠 Ludowici is the world's premier clay roof tile. Its creative possibilities are endless. It complements any architectural style. And nothing surpasses it in appearance, quality or performance. There is a reason architects state,

"There is Ludowici ... and then all others."

- 🏠 Ludowici's Color Guide was created for architects and builders looking for shades beyond our 45 designer colors. The guide was developed using the PANTONE TEXTILE Color System® and enables you to pinpoint the exact color you have in mind.

Before application of Ludowici clay tile in alpine conditions (typically encountered at higher altitudes in heavy snow load areas), plans must be submitted to the Ludowici Technical Department (800-945-8453) for approval. Ludowici will not assume any liability or responsibility for damage caused by the application of clay tile in alpine conditions unless plans have been pre-approved. (For more information, the Technical Bulletin, "Alpine Conditions: Snow and Ice" is available on request.)
